OFFICIAL PRESS RELEASE NOW LIVE

Every Choice Plants Tomorrow's Harvest Today

New Book Challenges Readers to Confront a Sobering Truth: Every Harvest Begins with a Seed

James Langston's You Reap What You Sow (2nd Edition) Examines the Choices, Compromises, and Consequences Shaping Individuals, Families, Churches, and Nations

Virginia Beach, VA [June 3, 2026: 10:37 am (EST)] — In a world increasingly marked by division, confusion, moral uncertainty, and spiritual drift, author, pastor, missionary, and retired U.S. Navy officer James Langston is asking a question many have been afraid to confront:

In a world increasingly

marked by anxiety, grief, emotional exhaustion, uncertainty, and spiritual confusion, Langston's newest release dares to confront one of the most difficult questions believers quietly wrestle with but rarely discuss openly:

What if the harvest we see today is the direct result of the seeds we planted yesterday?

In his powerful new release, ***You Reap What You Sow (2nd Edition):* The Consequences We Ignore and the Harvest We Cannot Escape**, Langston takes readers on a compelling journey through one of the Bible's most timeless and unavoidable principles: *"Whatsoever a man soweth, that shall he also reap"* (Galatians 6:7).

Spanning 517 pages of biblical insight, cultural observation, practical wisdom, and spiritual challenge, this thought-provoking work examines the condition of modern society through the lens of personal responsibility, truth, leadership, family, faith, and eternity.

"This is not a book about blaming politicians, the media, the education system, or society," Langston explains. "It's a book about looking into the mirror. The harvest always begins with the seed."

Readers will encounter bold chapters such as:

- The Death of Common Sense
- A Nation Addicted to Itself
- Weeds in the Church
- The Harvest of Broken Homes
- You Cannot Mock God
- The Seeds of Restoration
- Sowers of Light in a Dark World
- The Final Harvest

Far from being a book of doom and gloom, *You Reap What You Sow (2nd Edition)* offers a message of hope. While the book confronts difficult realities, it also points readers toward God's grace, restoration, redemption, and the possibility of planting new seeds for a better future.

Early readers have described the book as:

"A wake-up call for our generation."

"One of the most timely Christian books of the decade."

"Convicting, courageous, and deeply hopeful."

"A book that doesn't just explain what's wrong—it explains why."

As cultural debates continue to dominate headlines and many wonder where society is headed next, Langston's message remains both simple and profound:

The future is being planted right now.

Whether you are a pastor, parent, teacher, leader, student, or simply someone searching for answers in uncertain times, *You Reap What You Sow (2nd Edition)* offers a timely reminder that our choices matter, our actions matter, and the seeds we plant today will determine the harvests we experience tomorrow.

About the Author

James Langston is a retired United States Navy officer, pastor, missionary, speaker, and author of more than forty books. He serves as Senior Pastor of Pilgrim Outreach Ministries International and has devoted his life to sharing biblical truth, encouraging believers, and proclaiming the Gospel of Jesus Christ throughout the world.

Alongside his wife, Cecilia, he continues serving through missions, ministry, writing, and humanitarian outreach.
